DETAILED ACTION

1. The Office acknowledges the changes made to the claims by the applicants. All objections and rejections of the claims have been withdrawn.

Allowable Subject Matter

2. **Claims 1 and 3-9** are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record does not appear to either describe or suggest a vibrator controlling circuit wherein a frequency shift is detected between a square wave signal from a square wave generating circuit and the resonance frequency of a vibrator and the frequency of the generated square wave signal is trimmed by a signal detected by the frequency shift detecting circuit. These along with other limitations set forth by the claims appear to render the application allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
